> **High permeability**  
> Pockets directly included in the  
fabric

> **Preservation of flora &  
fauna**

> **Thick fabric**  
> **Strengthened edges**

## Quick installation & low maintenance

### QUICK INSTALLATION

The setting of a Mobi-Fence™ is easy and quick thanks to its lightness, its flexibility and the pockets included in the fabric to slide the stakes.

The installation comes down to driving the stakes.

### LOW MAINTENANCE

Mobi-fence™ does not require any special maintenance and fits perfectly and easily into any type of landscape.

**Before**  
*Mobi-fence*  
*installation*

**After**  
*+10 years after*  
*Mobi-fence*  
*installation*

Mobi-fence™ provides sandbank or dust control, dune reinforcement and sea erosion control.

Mobi-fence™ protects against strong rising tides, stabilized the base of the dune, and protects against sand being carried away by the tide or wind.

Pathways, roads, parking lots, recreation areas and buildings are protected and the development of flora and fauna are encouraged.

## Multiple applications

### ACCESS & INFRASTRUCTURE PROTECTION

### DUNE REINFORCEMENT
